## U. S. ISSUES PROPOSAL TO ITS NEIGHBORS FOR PAN-AMERICAN UNION

Definite Step by Secretary Lansing to Bind Whole Hemisphere to Principles of Monroe Doctrine

#### WILSON BEHIND THE PLAN

WASHINGTON, Jan. 4.-Proposals for a formal convention to be signed by all the American republics have been made by Secretary Lansing to their diplomatic representatives here, with the gen-

matte representatives here, with the general idea of guaranteeing the territorial integrity of all the signatories and of perpetualing the republican form of government on this hemisphere.

In its international aspects the proposal is for the crystallization of the Monroe Doctrine and for the definite and formal adoption of the policy of "one for all and all for one," promulgated by Secretary Lansing in his recent address to the Pan-American Scientific Congress, to the Pan-American Scientific Congress. Concretely, this Government proposes:

That the nations of the American continent mutually agree to main-ain the republican form of government and to assist one another against rebellion by the prohibition of arms shipments to rebels against any rec-ognized American Government, and preventing the organization of fillbusiering expeditions on their soil.

That the nations of this hemispher jointly pledge resistance to terr torial aggression against any one of

That the signatories bind themselves to arbitration or other means of peaceful settlement of all disputes, including boundary questions, except matters involving national honor or independence.

plan as a whole is not new. All Its proposals have been discussed in diplomatic circles here for more than a year. President Wilson was the first to move in the matter and, seconded by Secretary Bryan, he quietly put the plan in motion with the intention of sounding out feeling in South America before draw-

ing up his proposals in a formal way. Latin-American diplomatists believe that its practical effect on the relations between the signatories will be negligible. They point out that all strictly American questions have been settled by arbitration for many years, that there is at present no threat of despotism on this continent, and that there is little danger territorial aggression from Europe. What they chiefly hope for as a result dathe plan is the spread of a feeling of ata ual trust.

Society for Organized Charity Demonstrates Deadly Effects of "Booze" at Big Show

A "booze" chart, showing the deadly effect of alcohol, was the chief centre of atttraction at today's exhibit of the Society for Organizing Charity in the Widener Building, by reason of a clever ruse on the part of the person who originated it.

After numerous German French, Eng-lish and American scientists have elucidated briefly on the deadly effects of "booze," there appears at the very end the following, attributed to "Ty" Cobb, of the Detroit Americans:

'No nip for me; it affects my batting

"That's puttin' Ty where he belongs," not know Greek and Latin and chemistry and astronomy, but he is some scientist in baseball." and the speaker pushed in through the crowd, and many persons Edded their approval of the remark.

Leonard Mason, of the Board of Mason is the Board of the speaker to the speake

Merention, was the principal speaker tolay and emphasized the work of the de-partment. He urged more use of the Schuylkill River and Fairmount Park and said that it would be a good thing if penny rides to the Park were established on certain days, so that the children who are cramped in narrow streets might have a chance to play in the clean air

He urged that the city adopt the float-ing bathhouse for the Schuyikill River and that free public bathhouses be kept open all the year around, so that the poor might "be refreshed morally and physically.

poor might "be refreshed morally and physically."

Miss A. B. McCall spoke on "Housing Conditions." A conference on children's welfare was held by Mrs. Louis C. Maderia, Roy Smith Waliace and Edwin D. Solenberger.

The "Hoboes" continued to attract the most attention at the exhibit. "Andy" Brady, 75 years old, who swings his ax for the benefit of the visitors, told several persons today that he oughtn't be doing it, as he had a well-to-do son living out in California, who deserted him when he needed the lad the most.

A well-dressed man walked into the exhibit and approached a woman in charge of one of the booths.

"Is this the Society for Preventing Suicide?" he asked.

The young woman replied that she had

Buicide?" he asked.

The young woman replied that she had never heard it designated as such.

"Well, I look pretty good, don't I?" he continued. "But I'm just about ready to quit. My wife and children are all dead and I've been wandering all over the country for the past six years. I can't get work, so I might as well quit. Can you do anything for me?"

He was turned over to one of the men and sent to the Wayfarer's Lodge where he was put to work.

Another play was given this afternoon.

### DIVORCE IS RECOMMENDED

Atlantic City Master Favors Annulment of Musician's Marriage

A divorce has been recommended for Mrs. Wilhelmina Elst, wife of Richard Otta Elst, a member of the Philadelphia Orchestra, by E. A. Higbes, an advisory master in Atlantic City. Mrs. Elst instituted suit in that city some time ago on the charge of desertion and the alleged love of her husband for another woman. 'I find that the defendant has been living with another woman and loved her more than his own wife, that the defendant quarreled with his wife, struck and threefuned to kill her," reads part of the master's report. The wife is also to be given the custody of her two children and its a week alimony should the court sustain the master's report.

## GARY PLEA FOR HIGHER TARIFF LAW RECEIVES STRONG SUPPORT HERE

Charles J. Cohen and Nathan T. Folwell Indorse Steel King's Advocacy of Protective Measure

### SEE CRISIS WITH PEACE

The opinion of Judge Elbert H. Gary, chairman of the United States Steel Corporation, that an early ending of the European war is in sight, was received with varying responses by Philadelphia business men today. But his declar tion that the country's business prosperity would face grave possibilities at the close of hostilities unless the tariff schedules were promptly readjusted met with general approval.

"I think that there is very little doubt that Judge Gary's position is correct," said Charles J. Cohen, president of the Chamber of Commerce. "Furthermore, Chamber of Commerce. "Furthermore, I believe that the present market excitement and the advance in prices is unwarranted. This is independent of the tariff question. I favor a moderate, an ex ebitant, increase in the tariff, Mod-erat's in commercial matters is always desire.

Nathan T. Folwell said that he dis-agreed with Judge Gary's opinion that

peace was near.

"There will be no peace in Europe till one or other of the antagonists is exhau-ed, and that will take some time. Judge Gary is right in warning the people that in the event of the war ending abruptly there would be a big slump in the American market. Only a change in the tariff toward a protective basis would save the situation

"The end of the war would mean the end of our big munition orders and the throwing out of employment of thousands

DR. SYDNEY L. GULICK

#### DEPLORES ANTI-JAPANESE TALK BY THE IRRESPONSIBLE

Dr. S. L. Gulick, Asiatic Authority, Cautions Against Agitation

The danger in the problem of American-Japanese relations lies in the false impor-tance attached in both Japan and this country to irresponsible assertions, which unscrupulous agitatora distort until they are made to appear to the public as threats and menaces, according to Dr. Sydney L. Gullek, who arrived in this city today.

Doctor Gulick, who spent 26 years in Japan, is considered the greatest living authority on Asiatic problems. He has been touring the United States in the interest of a better understanding of the questions affecting the Far East, and re-cently urged upon Congress a plan which he believes will solve the Japanese ques-

Doctor Gulick feels that the unfriendly legislation which has been directed at Japan has cooled somewhat its warm friendship for America, but that the situation has not become dangerous or critical. He believes that the Japanese question, which stirred California to drastic legislation two years ago, can be solved by the adoption of an adequate immigration policy which will remove the possiy of future embarrassment, should e adopted by Congress.

While in this city he will address several associations on Asiatic questions and will speak at several churches, urging them to use their influence toward pro-moting better understanding and friend ship by advocating justice in our inter national dealings as a practical means of promoting world peace.

While in Japan, Doctor Gulick was a professor of Doshisha University and a special lecturer for the Imperial University at Kyoto.

## WILSON'S TAX PLAN OPPOSED IN HOUSE

Will Tell President He Cannot Hope to Include Gasoline, Autos and Bank Clerks

WASHINGTON, Jan. 6 .- President Wilson's proposals for increasing the revenues of the Government by direct taxation are doomed to defeat in the House. Following a canvass Democratic House

leaders determined to notify the President that he cannot secure the votes to put through the excise taxes suggested in his address to Congress. But one proposal made by the President has met with Democratic favor in the House. That is the pla to increase the tax on incomes. ment, has not reported since taking off the passengers. She is believed to be making for New York.

The direct taxes suggested by the Presi-dent included:

A 1 per cent tax on gasoline to yield \$10,000,000.

A tax of 50 cents per horsepower on automobiles and internal combustion enines to yield \$15,000,000. A stamp tax on bank checks to yield

\$18,000,000. A tax of 25 cents a ton on pig iron, A tax of 50 cents per ton on iron and

steel products. Democratic leaders have determined that it would be useless to attempt to put gaseline, automobile or bank check taxes through the House. Opposition to the fron and steel taxes, while vigorous, might be overcome. But conferences among the Democrats have developed an unwielding opposition. In any excited among the Democrats have developed an unwielding opposition to any excise taxes on articles of common use, and the leaders will advise the President that to propose them would be to court a split in the House Democracy that would add to the difficulties already precipitated by the preparedness fight.

They will tell Mr. Wilson the House probably would not advise any plan to lower the limit of exemptions from income tax below \$2000 for single men and \$4000 for married men

## 'CYCLONE' DAVIS ROARS HIS LUSTY DEFIANCE TO PREPAREDNESS

Texas Populist, in Maiden Speech in House, Spouts Poetry Mingled With Vehement Prose

#### SEES VISION OF DICTATOR

WASHINGTON, Jan. 6.-With poesy Representative 'Cy s, picturesque Texan, today his maiden speech in the House, a violent assault on preparedness and militarism. The veteran Populist war horse got a big "hand." He made a unique appearance with his bushy, wiry beard, black collar-less shirt and vehement gesticulations. In his peroration was the following:

'Shall gun thunders never cease, And dying millions moan While we feed the dogs of war On human flesh and bones?"

After vigorously denouncing all war and preparation for it, Davis said: "It is said that when the war in Europe shall have ended most of the world's free wealth will be in this country. Do not be deceived; that little squad who constitute less than a millionth part of the country's population, but control a tenth of all its wealth, when the crucial hour strikes, will again touch kness round that famous table at Judge Gary's and lay out the plans and specifications for making sure that not much of that wealth will reach the common man.

"It is a well-conceived plan of the pro-tected interests to join in the clamor for preparedness. 'A commercial conscience is war mad

-mad for great world power, and the millionaire magi of our country are holding conclaves and forming cabals to force upon the country a stupendous pro-gram of military preparedness, hoping to put in the White House a dictator to

Representative Hensley, of Missouri, introduced a drastic resolution demand-ing an investigation of the organizations

engaged in defense propaganda. The resolution will be pressed banti-preparedness faction among pressed by the Democrats, led by Representative Hons-ley, as part of the struggle to defeat the Administration defense program. The resolution would provide: "That the Speaker of the House appoint

a select committee of five members, and that such committee be instructed to in-quire into the organization, membership. expenditures, receipts and the source thereof of the Navy League, labor's Na-tional Peace Council, the National Secu-rity League, the American Defense Soand any other such organizations as have been active in propaganda for and against the proposed increase in the army and navy of the United States, and to ascertain what, if any, commercial in-terest, as shareholders or otherwise, members of such organizations and societies have in the manufacture or sale of munitions of war.'

The resolution would give the proposed committee wide inquisitorial powers. Representative Hensley announced his inten-tion of seeking an immediate hearing by the Rules Committee, to which the reso-lution was referred, and of pressing the measure before the House as soon as pos-sible.
